

## Access Point 300Mbps Power On RPD-700

Poweron

### Overview:

The RPD-700 is a 300Mbps Wireless N Range Extender which is designed to extend the coverage and improve the signal strength of an existing wireless network. Combined with leading wireless N technologies, superior security and backward compatibility with wireless b/g, the rpd-700 makes it a secure high speed solution that can help you keep an existing wireless network unchanged and vastly improve the network's coverage, giving you the freedom to roam anywhere in the house and access Internet without worrying about coverage.

### Key features:

IEEE 802.11n compliance. Backwards compatible with 802.11b/g

- Integrates router, Wireless access point, Four-ports switch and firewall in one
- 2.4GHz, wireless transmit rates up to 300Mbps (2T2R)
- 4x10/100Mbps LAN Port, 1x10/100Mbps WAN Port
- 3x5dBi Fixed Antenna
- Built-in firewall, Filtering on IP address, MAC address, Domain name, Applications, etc
- Supports 64/128-bits WEP, WPA/WPA2 Encryption
