Simple; the Best

HANDY STENO AH325
USB 2.0 Flash Drive

Simple yet exquisite design

The Handy Steno AH325 adopts the popular contemporary architecture style: Zen. With an environmentally friendly design, it bears no additional painting or components, with only an engraved design on the original black surface of the material. At the front of the drive, the reliable Apacer logo is inscribed on the black surface with brushed finish. The engraved screw decorated in four corners symbolizing the endurance and robustness of the product. The back of the drive adopts a totally different style from the front. An easy-to-use retractable USB connector solves the common problem of losing USB covers. By simply sliding out the USB connector from the back, you can gain access to the important data in the flash drive without the need to worry about misplacing the cover.

Compatible with
Windows®7
