

## USB 3.1 Gen & Type-C Dual Flash Drive AH180 16GB/32GB/64GB Red RP

### Overview:

AH180 USB 3.1 Type-C Dual Flash Drive is a perfect choice for New Mac book and other new-generation Ultra books.

Meanwhile, the product also supports OTG functions and can easily expand the capacities of compatible smart phones and tablet PCs.

The other end of AH180 uses USB 3.1 Gen 1 Type-A interface and is backward compatible with computer devices having USB 2.0. The bandwidth is 10 times faster than USB 2.0, significantly reducing the waiting time.

The greatest feature of Type-C front end is its reversible-plug, which eliminates the inconvenience caused by misplug and reduces slot damage by repeated plugging and unplugging, realizing plug-and-play.

AH180 is compatible with Android 5.0-above mobile devices with OTG functions, and can be used with Apacer File Bridge mobile App exclusively provided by Apacer. Therefore, users can easily browse, share, edit and manage files on mobile devices and rapidly share files among different digital devices, enjoying convenient mobile sharing.

360-degree screw cover can protect not only the connector, but also the cap from loss. With the integrated grommet, users can attach their mobile phone straps key chains or favourite straps with individual style!

AH180 is inspired by the American superhero comics. The combination of shiny golden and red colour demonstrates the flexible and robust heroic style. The super mini body in 3.2x1.2 cm is easy to carry.
