Portable Tire Inflator Pro

Features:

Smart Digital Display

Shows pressure, battery level, mode, and unit in real time on an intuitive screen, delivering clear status updates and helping users monitor inflation progress easily and accurately at a glance.

EV-Rated LiFePO4 Battery

Powered by an EV-grade LiFePO4 battery for enhanced durability, safety, and reliable performance, providing stable power output and long-lasting use in daily driving or emergency situations.

Preset Pressure Auto Shutoff

Set your desired pressure and let the inflator work automatically, stopping precisely at the preset level for simple, hands-free operation and consistent inflation results every time.

Multi-Mode Inflation Support

Includes Manual, Ball, Bicycle, Motorcycle, and Car modes to handle different inflation needs, offering smart presets and flexible control for sports gear, bikes, and vehicles.

Automotive Design Aesthetics

Features a grille-inspired technical design that fits seamlessly in your car, combining innovative styling with practical portability for a professional, automotive-grade look.

Specifications:

Cigarette Lighter Input:

12.0V \approx 10.0A Max

USB-C Input:

5.0V \approx 3.0A / 9.0V \approx 3.0A / 12.0V \approx 2.5A

Lithium-ion Battery Capacity:

4500mAh 9.6V (43.2Wh)

Maximum Inflation Pressure:

150 psi

Light Source Power:

0.48W (8 \times 0.06W LED Module)
