UGREEN Air Vent Magnetic Car Phone Mount

Features

Powerful Magnets for Secure Hold

Equipped with high-strength built-in magnets that provide a firm and stable grip on your device, this mount ensures your phone stays securely in place—even during sudden stops, sharp turns, or bumpy road conditions.

Clear Signal for Navigation & Calls

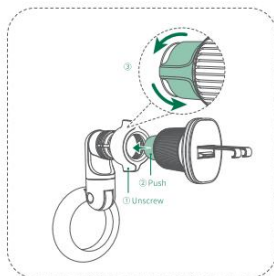

Engineered with a signal-friendly design that avoids interference, allowing seamless access to GPS navigation, Bluetooth calling, and data connectivity without interruption or signal drops.

360° Rotation for Flexible Viewing

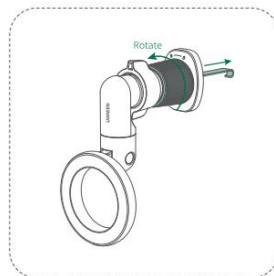

The mount features a fully adjustable ball joint that enables 360° rotation, so you can position your phone horizontally or vertically and tilt it to your preferred viewing angle for optimal visibility and safe driving.
