

## Adapter iPhone 4 to VGA Aculine AD-006

### Overview:

You can place the contents in your iPad up on the big screen with the Apple VGA Adapter. This resourceful Apple iPad Adapter will connect your iPad to any TV, monitor, projector, or LCD display that uses a VGA Apple connector. The Apple VGA Adapter makes it easy for you to transport the files that you need for presentations, events, etc. You can keep all of your essential files on your iPad and easily bring them to life in front of an audience when using the Apple iPad Adapter. This handy Apple VGA Adapter is easy to connect and it is compatible with your iPad, iPhone 4/5, and iPad touch 4th generation.

### Features:

Connects iPad to your television, projector, or VGA display to see your videos and slideshows on the big-screen

Connects to your iPad or iPad Dock via the dock connector, and to your projector or display using the VGA adapter

The iPad Dock Connector to VGA adapter also works with iPhone 4 and the iPad touch 4th generation

Use the Apple VGA Adapter to mirror whatever's on your iPad 2 screen - apps, presentations, websites, and more - on your VGA-equipped TV, display, projector or other compatible display in up to 1080p HD

Watch slideshows and video on the big screen in up to 720p by connecting your iPad
