

UGREEN

LP926-85236

Vacuum-adhesive magnetic holder, foldable and rotatable, white, made of plastic and aluminum alloy (LY).

Features:

Strong Vacuum Magnetic Grip

Combines vacuum suction and magnetic attraction to provide a secure, stable hold on smooth surfaces, ensuring reliable device mounting without slipping during daily use.

Foldable Space Saving Design

Foldable structure allows easy adjustment and compact storage, making it ideal for travel, office, or home use while maintaining strong holding performance.

360° Rotatable Viewing Angle

Supports full 360-degree rotation for flexible viewing angles, enabling comfortable positioning for video calls, navigation, streaming, or hands-free device interaction.

Durable Aluminum Alloy Build

Constructed with a combination of aluminum alloy and high-strength plastic, ensuring long-lasting durability, stability, and resistance to daily wear and tear.

Minimalist White Aesthetic

Designed in a clean white finish that blends seamlessly with modern interiors, offering both functional utility and a stylish, understated appearance.

Specifications:

Material:

Plastic + Aluminum Alloy

Color:

White

Rotation:

360° Rotatable

Mounting Type:

Vacuum Adhesive Magnetic

Structure:

Foldable Design
