

LP124-40354 & 40356

20mm Cable Tie Band - 2M - 40354

20mm Cable Tie Band - 5M - 40356

Features:

*Multiple Use:

UGREEN cable fastening tape is a low profile and economical option of cord organization, management and storage for computer, guitar cables, speaker and mic wires and electronics extension cords.

*Hook & Loop Straps:

With hook material on one side and loop material on the other, these high quality fastening cable ties are designed for you to tie cables or other fastening/ attaching needs. Wraps onto itself for secure hold, ensuring the strap stays with the cord so it doesn't get lost.

*Self Organizer:

Cable management becomes much easier with this tie roll. Simply cut it to the perfect length as your custom orders for any application: short cut to wrap unsightly cables together or long cut to avoid cable nests and clutter.

*Reusable and Durable:

Self-attaching hook and loop material is a "miracle" fastener with thousands of uses from hanging a picture on a wall to replacing a traditional zipper on a jacket to almost anything you can imagine. Long nylon strips, adjustable and reusable. 20mm wide fastening tape for strength and durability.
